To most of us, at Christmas time, the one gift of all, is Mother's. We just naturally try a little harder to choose an appropriate one for her particularly. A gift for the household means added comfort and more recreation. A household gift to mother is always welcome, certainly it reflects your thoughtfulness. Universal Electric Appliances make desirable mother gifts.

The Universal Electric Iron with its labor saving attached stand, Mother need not lift the iron at all—simply tilt it back, another advantage is the automatic safety switch. The Universal Electric Grill is fine for mother too. It enables her to prepare the breakfast right on the table, saving steps to and from the kitchen. This grill boils, broils, fries or toasts.

The Universal Percolator

For instance it is really a modern household necessity. Universal Percolators have all the distinctive features which have made them the leading coffee making device for the home. The patented pump operates freely with either cold or hot water soon after the electricity is applied to the bottom of the pot. The Universal method percolates six to ten times more water through the coffee than any other. The operation is completed before water reaches a boiling point.

RID-JID OPEN END FOLDING IRONING TABLE

A New and Better Ironing Board

THE RID-JID Ironing Table is as handy as a bridge—it will not wobble, sway, bend nor creep when you iron. You can sit on the end and it will not even tilt. No more pushing an old board up on two chair-backs and having to lift it each time you wish to iron a skirt or petticoat. The RID-JID stands firmly on its own foundation, and is so constructed that a full-length shirt may be slipped on over the end.

In spite of its marvelous rigidity, the RID-JID is lighter than any other folding board made. It closes so compactly as a pocket book. We would be glad to have you stop in and see it.

Special for Saturday **\$2.99**
